Bringing “A Universe of Stories” To Your Library
10/23/2018

Presenters: Brooks Mitchell (STAR Net) and Luke Kralik (CSLP)

The webinar will begin at 1:00 p.m. (MT) and will be recorded.

While you’re waiting:

1) Find the toolbar – it will either be on the bottom or top of your Zoom window
2) Introduce yourself in the chat box
3) Click audio “Join by Computer” – you won’t have microphone access
Poll Question

• How far above Earth does the International Space Station orbit?
  • 28 miles
  • 200 miles
  • 1200 miles
  • 4000 miles
Today’s Agenda

1. Introduction and Reminders

2. Luke Kralik of CSLP

3. STAR Net – CSLP Resources

4. Example Program – Mars InSight Landing

5. Feedback from YOU: How Can We Help?
Join STAR Net!
www.starnetlibraries.org

Professional development resources, including webinars, newsletters, blogs, forums, videos, and much more!
For example: **DIY Sun Cookies**

Like an activity and think other library staff should know how great it is? Didn’t like an activity or have modifications to make it better? **Make sure to leave a review!**

  - 10/31

- **Young Adult Library Services Association (YALSA)**
  - 11/2 – 11/4
Luke Kralik
Organizational Coordinator
Collaborative Summer Library Program

Luke.Kralik@cslpreads.org
Quick Introduction to CSLP

Collaborative Summer Library Program
What is CSLP?

Mission:
We empower libraries to foster community.

CSLP Vision:
We collaborate with libraries to create an inclusive literacy based program that is enjoyable for all ages, provide a reproducible program with a unified theme, share resources and offer professional support.
Our History

CSLP began in 1987 when ten Minnesota regional library systems developed a summer library program for children, choosing a theme, creating artwork, and selecting incentives that public libraries in the regions could purchase and use. State libraries and systems continue to join and CSLP continues to evolve, but its guiding principle remains the same: librarians sharing ideas, expertise, and costs to produce a high-quality summer reading program for children, teens, and adults.
CSLP Today

- Volunteers, who then recruit others, have sustained this organization for nearly 30 years.
- Hundreds of professionals donate their expertise to develop the theme, select the artist, research and develop literature-based programs for all ages.
- 16,000 public libraries in 50 states, Bermuda and five territories participate in the program.
2020: “Imagine Your Story” (Fairy Tales/Mythology/Fantasy)

2021: “Tails and Tales” (Animals)
Early Literacy: Babies, Toddlers, Preschoolers
Childrens: Elementary school aged
Reproducible Space Patterns

Reproduce the planets, and other space-related shapes at the desired size and have
puzzles create the title of their favorite book on the nasa. Use as a backdrop for sci-fi decora
tion or to cover the walls of clothes or a wall.
Thank you!
luke.kralik@cslpreads.org

Collaborative Summer Library Program
Universe of Stories  
Summer 2019

NASA@ My Library and STAR Net are partnering with the Collaborative Summer Library Program to support 16,000 libraries.

Please join us!!
Poll Question

• Which of the following animals has NOT been in space?
Example STEM Program

Mars InSight lands on 11/26 at ~3:00 pm ET

1. Contact a local astronomy club to host a star party!
2. Watch the “Off to Mars” webinar
3. Show an inspiring video
   1. [https://www.youtube.com/watch?v=ZiSV8L20ce4&t=1s](https://www.youtube.com/watch?v=ZiSV8L20ce4&t=1s)
4. Facilitate Strange New Planet and/or Mars Engineering!
Mars Engineering

Each team’s mission is to design and build a rover out of the materials available that can pick up, move, and set a rock down into a (fake) scientific instrument on the rover body, like the Sample Analysis at Mars (SAM) instrument onboard the Curiosity rover.
Mars Engineering Materials

**Mandatory:** variety of tape, scissors, markers, glue, foil, 3 small rocks

**Miscellaneous Craft and Everyday Items:** Straws, pencil top erasers, beads of various sizes, foil cupcake holders, screens, wooden miniatures, aluminum foil, plastic wrap (of all colors), old CDs, pipe cleaners, toothpicks, wire, wire cutters, Legos, construction paper (variety of colors, black), tinsel, ribbon, fabric, gauze, wood dowels/skewers, rubber bands, shiny streamers, etc.

**For Rover Wheels:** Wooden spools, large buttons, bottle caps, plastic cups (sturdy), empty (clean) Play-Doh® containers, old CDs, etc.

**For Rover Body:** Pint-sized milk containers, coffee cans, soup cans (tape any sharp edges), paper or Styrofoam cups, or other objects for the spacecraft body, empty DVD cases, black plastic or biodegradable seedling (plant) trays, empty egg cartons, cereal boxes, 2-liter soda bottles, different-sized Styrofoam blocks, other empty plastic or cardboard containers/boxes, etc.
How Can We Help YOU?

- What are you most nervous about for 2019 summer reading?

- What are you most excited about?
How Can We Help YOU?

- Which program do you need the most assistance with?
  - Early childhood
  - Children
  - Teen
  - Adult
How Can We Help YOU?

- Have you planned any programs already? Please share!
How Can We Help YOU?

- What resources would be valuable from NASA?
- Multimedia resources?
- Activity guides?
How Can We Help YOU?

- What are some webinar themes/topics that you would like to see in the future?
