# LEGO MINDSTORMS EV3 Robot

Kit Includes:
- One Instruction Manual
- A Variety of Building Pieces and Robot Components
- One Parts List/Cost Sheet
- One Kit Organizational Chart

You Will Need to Provide:
- A Computer
- Internet Access

To Get Started:
- Build the robot using the enclosed instruction manual and the provided building pieces and robot components.
- With your computer, download the EV3 software (free): **http://www.lego.com/en-us/mindstorms/downloads/download-software**. *Please note:* When you open the software, you will see a variety of robot options. You are building the basic robot, so to start a program, click on "File" in the upper left corner of the screen and choose "New Program."
- Need assistance learning to program the robot? Find great resources here: **http://www.lego.com/en-us/mindstorms/learn-to-program**.

Check Out Policy:
- The LEGO MINDSTORMS EV3 Robot can be checked out for 14 days with one renewal.
- Regular overdue fines apply.
- A lost, damaged or stolen kit will result in a $380 charge.
- Failure to return any part of the kit will result in a charge for the individual pieces.
- Return the LEGO MINDSTORMS EV3 Robot during regular business hours.
- Do not place it in the book drop.
