

### **Bring NASA Lunar and Meteorite Sample Disks to your**

**Library:** Interested in bringing NASA Lunar and Meteorite Samples to your events? Librarians sign up here to be contacted about certification classes to borrow these precious, free, authentic NASA resources. In these classes you will experience hands-on activities that can be used with real Moon and space rocks to engage learners of all ages in NASA science and explorations. For additional information or if you have questions, contact Suzanne Foxworth at [suzanne.m.foxworth@nasa.gov](mailto:suzanne.m.foxworth@nasa.gov)

### **Scientist Connection Webinars:** Sign up to receive

notification about “Scientist Connection Webinars” led by the NASA Astromaterials Research and Exploration Science (ARES) Division at the Johnson Space Center in Houston, TX. These interactive webinar events are designed to connect scientists with educator-led student groups in formal and/or informal educational environments. Topics include the exploration of Mars, virtual tours of ARES research and curation labs, astronaut imagery from the International Space Station and more! Events are scheduled at least 4 times per year (approximately one every quarter). They are geared for students in grades 4 – 10, but other grade levels are always welcome to attend. For additional information or if you have questions, contact Paige Graff at [paige.v.graff@nasa.gov](mailto:paige.v.graff@nasa.gov).
