MAKE TECH @ HOME STEAM KIT

WITH BEE-BOT ROBOTS

Recommended for ages 4-8

QUICK START:

* **Bee-Bot should come charged**
* **To recharge, connect USB charging cord to computer, see user guide—does not plug in to wall chargers.**
* **Command cards and alphabet cards can be placed under grid**
* **Anything can be created and placed under the grid to be used in a guided story activity e.g. flowers and a beehive can be placed randomly around the grid with the objective of collecting from each flower before returning to the hive! Numbers can be placed randomly under the grid for coding the Bee-Bot in sequence, etc.**
* **Remember to "clear" the program using the "X" button as it will remember your commands until it is cleared.**
* **Be creative and make your own stories!**
